Telmark/Topiderm offers our customers the finest in formulation, contract manufacturing and contract packaging of skin care/derma products. We have formulated and produced some of the most extraordinary skin products in the world. Our facility is registered to produce OTC pharmaceutical derma products and is ultra-compliant to all FDA requirements.

Our extensive capabilities are supported by an ultramodern in-house micro, analytical and testing lab. Our philosophy is to act as your manufacturing partner, offering all our services, as if this were your own facility.

We offer our customers the advantage of collaborating with some of the country's leading cosmetic & dermatological chemists in developing and/or fine tuning your formulas. As your versatile product development and manufacturing partner, we can formulate blend, fill and package a wide variety of personal-care products into virtually any type of package.

Let me introduce you further to Topiderm/Telmark. Contact me at your convenience: eludwig@telmarkpkg.com, (732) 739-9100, ext.11
